Tolle Erg\u00e4nzung zum Spiel.

Wem der Soundtrack zusagt, wie mir, der darf gerne zugreifen!
Die Anleitung und Artworks sind ganz nett, aber es k\u00f6nnte dennoch etwas g\u00fcnstiger sein.
Wenns im Sale ist, und wem das Spiel gef\u00e4llt: Zugreifen!

Great addition to the game.

If you like the soundtrack, like me, you are welcome to access it!
The instructions and artwork are quite nice, but it could still be a bit cheaper.
If it's in the sale and who likes the game: grab it!. The soundtrack to Super Night Riders is incredibly small. Each track is very short, and by the time you play enough of the game, the music will be so grating that you won't want to hear it again. Especially that main menu theme. I never want to hear that again.

Otherwise, all that comes with this pack is a wallpaper of the game's main menu, some bonus concept art, an instruction manual (you can read it **in its entirety in this DLC's screenshots**) and a **pathetically-short "anime" of the main character turning her head (no seriously, it's just three seconds long and you can watch it in its entirety in the main game's store description)**.

Please don't waste your money on this DLC. Get the main game, [I do recommend it, but don't bother buying this DLC.](#)
